

World Day against Abortion

September 8, 2022

For decades, the abomination of abortion has claimed victims of every order and degree through various increasingly aberrant techniques, ranging from saline abortion to partial birth, from abortion obtained through curettage to that by aspiration, without counting the unquantifiable ones obtained through the infamous "day after pills".

The unborn baby is undoubtedly the first and most serious victim of abortion, but we can include several others: the mothers, deceived beyond belief by a system leading them to fail to recognize what is most precious to them --- the life of the baby they are carrying in their wombs; the fathers, made unaware and irresponsible of their sexual acts to the point of renouncing their role and identity; the doctors who, through flawed and relativistic logics, deny reality to the point of attacking and killing reality itself; positive law, which, abdicating its role of ordering society, projects it into a system of disavowal of the most elementary values, deforming the very meaning of "law"; public opinion, which has been made incapable of critical thinking and misled into thinking that such inhuman solutions are necessary to cope with what once used to be Grace but is now identified with a nasty "problem to be solved".

All the battles fought by the so-called Pro-life world have contributed to raising public awareness on the subject, and this is a great merit before both mankind and God himself, the author and defender of life. However, we are convinced that in the current moment of anthropological and spiritual degeneration that permeates the whole world, the battle in defense of innocent human life must take a step forward.

In this sense we, as the *Liberi in Veritate* Committee ("Free in the Truth"), are proposing the establishment of a World Day against Abortion, which will be structured in the following moments:

- 1) Celebrations of Holy Masses against abortion, so that the offering of the Body and Blood of Our Lord Jesus Christ may put an end to the slaughter of the innocent that is perpetuated day by day;
- 2) Eucharistic adorations with the recitation of the Holy Rosary, so that the Mother of God and of the whole of mankind may no longer allow her innocent children to be sacrificed on the satanic altar of totalitarian relativism;
- 3) Praying the Holy Rosary with the same intentions;
- 4) Offering one or more days of fasting;
- 5) Organizing lectures on the topic, both in person and from remote;
- 6) Creating a worldwide prayer network for the abolition of abortion;
- 7) Establishing a reference site.

Points 1) 2) 3) can be done both in public and private form.

All the above moments are important, but we believe that point 1) is the most effective of all, because it offers the second person of the Most Holy Trinity for the attainment of our goal. **It will therefore be necessary to make all priests sensitive to the topic, so that they can -- publicly or privately -- celebrate the Sacrifice of Our Lord Jesus Christ with this intention. In addition, Bishops, Priests, Male and Female Religious, and the whole Church are to be reached, so that with the weapons of prayer we may obtain from Our Lord Jesus Christ the grace we require.**

The date chosen for the first World Day against Abortion is 8 September 2022, the Nativity of the Blessed Virgin Mary, Mother of God and of all motherhood.
